

FIRE EXTINGUISHERS

Service & Maintenance

It is vitally important that you have your fire protection equipment serviced regularly to ensure that it operates effectively in times of need. Wherever you are based in the UK, Bond Fire can provide you with a 24 hour call out service, 365 days a year. You can rely on our team of highly trained operatives.

There is a choice of service agreements; each following a strict routine, as specified within BS 5306 parts 3 and 8 and manufacturers' recommendations.

Standard Service

This provides regular service visits, with a charge per visit depending on the number of extinguishers. Any parts, refills, or periodic tests required will be charged at prices current at the time. Fire blankets and hose reels are covered by this scheme, which also provides:

- **Computer controlled service scheduling**
- **Certificate of Inspection issued on completion**
- **Written report for any further requirements**
- **24-hour emergency call-out**
- **Free fire protection equipment survey.**

In most cases you will find an annual service will be adequate but you may need visits more frequently.

Comprehensive Service

This provides the same cover as the standard service, but with the added benefit of being charged at an all-inclusive rate. Any normal service parts, periodic tests and refills required are included within the price.

- **Computer controlled service scheduling**
- **Certificate of Inspection issued on completion**
- **Written report for any further requirements**
- **24-hour emergency call-out**
- **Free fire protection equipment survey.**

This service is ideal for forecasting annual budgets and keeping costs at an entry level.
